## PROVEN RESULTS

### • RETURN ON INVESTMENT

In just one example, a Virginia manufacturer with just over 200 employees saved over \$32,000 in reduced overtime during Year 1. Free up time and valuable resources.

### • SYSTEM UPTIME AND AVAILABILITY

Use a proven online Learning Content Management System to make OSHA Training available to your employees 99.5% of the time either at the facility or from home.

### • SCALABLE AND FLEXIBLE

Deliver training to an audience of one or hundreds simultaneously at any time of day. Learners need an internet connect and as few as 11 minutes to complete a training module.

## A CLEAR BUSINESS CASE FOR ONLINE OSHA COMPLIANCE TRAINING IN YOUR ORGANIZATION

Far too many organizations deliver their required OSHA Compliance Training the old fashioned and expensive way; by gathering large groups of employees on overtime to listen to an instructor deliver the same old material. With hours of information to cover and no value to add, OSHA Compliance Training can become a five or six figure decision depending upon the size of your organization. Leverage this technology now in order to save money and gain efficiency.

TMG's proven online Learning Content Management System is easy to access and delivers any number of OSHA compliant training modules to any employee with access to an internet connection. It also allows training administrators and EH&S leaders to track, monitor, test and remind trainees with this intuitive online training tool. Call TMG today for a demonstration and to discuss the benefits for your company.
