View the program website below to view the course syllabus, modules, and objectives.

\*Define/Measure/Facilitation/Charter Approval (4 days) and subsequent sessions (2 days each).

## EXAM, FINAL REPORT, GRADUATION

3.5 Days

Final exam (4 hours, 100 questions) and preparation for final report, including one-on-one reviews of Project Presentations. Final report out from each candidate, summary project report on projects and course. Graduation & presentation of Certificates.

Project-driven Lean and Six Sigma (DMAIC) Certification through training, project support, and coaching by TMG Master Black Belts. Candidates will complete DMAIC projects selected by their management focused on specific process-related problems the company is experiencing. Between phases, the candidate will apply the training to move toward completing their project with coaching from a TMG Master Black Belt & Operations Officer. Options to attend include in-person or virtual sessions via Zoom.
